VELINDRE CANCER CENTRE is the largest non - surgical cancer Hospital in Wales providing Radiotherapy, Chemotherapy and other specialised anti-cancer treatments for over half the people of Wales. We have been providing support and care to cancer patients in South Wales for over 50 years. Between April 2009 and March 2010 Velindre Cancer Centre provided care, treatment and support for nearly 130,000 out patients and day cases.

More people in Wales survive cancer now than ever before thanks to early detection and better treatments. It is estimated that by 2015 there will be a 30% increase in the most common forms of cancer in Wales; *we are determined to raise the money necessary to enable us to meet these new challenges.*
